### THE FACTS

#### DID YOU KNOW?

**According to the American Civil Liberties Union (ACLU), the government cannot penalize you for your religious beliefs.**

The First Amendment of the U.S. Constitution says that everyone in the United States has the right to practice his or her own religion, or no religion at all.

#### According to the NIH, Informed Consent

is the process in which a health care provider educates a patient about the risks, benefits, and alternatives of a given procedure or intervention. Informed consent is both an ethical and legal obligation of medical practitioners in the US and originates from the patient's right to direct what happens to their body.
